

Antibacterial Laminate

Reduce Bacteria by **99.99%** in 24 hours

Put your mind at ease with the newest addition to our line of premium laminate surfaces. AB+ Laminates contain a proprietary additive that inhibits the growth and spread of bacteria and fungus by 99.99%.

Reduce the spread of bacteria-causing diseases and provide safe surfaces for your employees, customers, students or family members.

AB+ is available on nearly all of our laminates so you can create a stylish, cohesive look to fit any décor.

AB+ Antibacterial Laminates Are:

Antibacterial for Life

Treated to the core of the product, our laminates inhibit the growth and spread of bacterial colonies by 99.99% within 24 hours.

Easy to Clean

Simply wipe down with soap and water or use any alcohol-based or disinfecting cleaner when sanitizing is of utmost importance.

Proven Effective On:

- **E. coli** (*Escherichia coli*)
- **Listeria** (*Listeria monocytogens*)
- **Salmonella** (*Salmonella typhae*)
- **Staph** (*Staphylococcus aureus*)

Available in Specialty Finishes

We offer a wide range of textures and finishes to fit your unique project. Choose from woodgrain and stone textures, abstract designs and more.

Scratch & Impact Resistant

Unlike hardwood, laminates are resistant to scuffs, scratches and dents. Our laminates are impact resistant to NEMA LD-3 standards.

- **P. aeruginosa** (*Pseudomonas aeruginosa*)
- **C. albicans** (*Candida albicans*)
- **E. faecalis** (*Enterococcus faecalis*)

99.98%-99.99% reduction in 24 hours. Verified by SGS and Industrial Microbiological Services LTD. Full report available upon request.
